The Lead Applicant is our Association Partner [Talent and Creativity](#) and TIA Formazione is partner of the project.

The present proposal is essentially addressed to the sector of “**Management of cultural services**” understood as the **conservation, promotion** and **protection** of cultural, landscape and tourist heritage.

The project therefore has a sectoral approach, but intends to offer training opportunities abroad to students of the Institutes that are part of the **National Mobility Consortium**, strengthening and leveraging on some specific professional skills that come out of the specific fields of study, developing at the same time the so-called **Life Skills** with respect to the aforementioned sector.
